

# PLUMBER'S MATE ABSORBENT UTILITY PADS

*Easily keep your plumbing projects clean!*

**#46920**

*Saves you  
thousands!*

The Plumber's Mate® Absorbent Utility Pads are ideal for when needing to repair a leaking drain or pipe. They are great to use in those tight spaces under leaking sinks, drains, water heaters, faucets, or behind toilets. You will no longer have wet rags or buckets to carry around. Each pad can quickly absorb up to 1 quart of liquid. The patented SuperCore® technology protects surfaces from moisture damage and is an upgrade to the standard towels and buckets method. Each pad has a dry touch top layer, a dynamic liquid containment layer, and a leakproof protective layer. **Every pack contains 6 pads that measure 24" x 24"**. Avoid thousands of dollars in water damage and prevent your next plumbing project from becoming a huge mess!

- Easily holds 1 quart
- Protects cabinets and floors
- Quickly absorbs liquids
- Great for use in tight spaces under leaking sinks, faucets, drains, water heaters, and toilets
- Made in the USA
